Peter Jenkin
Managing Director
Partners in Export UK Ltd

Good Afternoon Peter.

Re: Excellent Service

I just want to drop you a quick line to thank you for all your efforts in bringing my business into the International arena.

Your assistance and knowledge in getting my company recognised by International Airports and International Security companies was fantastic and has made a real difference now and going forward to my company

The business profile you put together and which is now sent out with all my quotations has made a world of difference from being ignored to being responded to.

The latest contract I have won from G4S is a fantastic achievement and may well be the biggest contract JP have ever secured.

Thanking you again for all your assistance and will certainly be working with you again to use your experience and business knowledge.

If you wish to give any potential client my personal email address I will respond to them direct.

Once again thank you for all your excellent advice and hard work.

Yours sincerely

James M Pike
Managing Director
