## **Recommendation – Mr. Peter Jenkin – Partners in Export**

I met Peter 2 years ago at a Chamber business networking event, from the outset Peter demonstrated his vast knowledge and experience of the export industry and his first class empathy he has for business when entering this area of trading for the first time.

Peter subsequently demonstrated many other talents that he has acquired during his extensive senior business life. I certainly admired his versatility and tenacious ability to get things done.

I have worked in partnership with Peter on various projects and he has consistently demonstrated his total business professionalism and the success he has achieved with many clients.

Peter, has a wonderful relaxed approach that puts people at ease very quickly. I would highly recommend Peter as a professional business consultant particularly in his Export area of expertise.

It is a pleasure to work with him.
